**"More than any other factor, my experience on the MA program at Reading precipitated my transition from teacher and teacher trainer to fully-fledged ELT professional. My first ELT Journal articles were based on assignments I'd done on the MA; my first IATEFL talk was derived from my dissertation; my first writing contacts came through fellow students. The MA gave me not just the skills and the discourse that enabled professionalization, but also the confidence. It was a turning point and I'm enormously grateful."**

Professor Scott Thornbury, Associate Professor of English Language Studies at the New School, New York, and Academic Director at the International Teacher Development Institute (iTDi)
