Fire alarms

- This building has a fire alarm system that incorporates automatic fire detection.
- A red break glass fire alarm call point is located at every staircase or external exit door.
- If you discover a fire and the fire alarm is not yet sounding, then raise the alarm by pressing the red break glass call point.
- The sound will be a voice alarm interspersed with a siren.
- Visual warning signals are provided which will be a strobe and sounder beacon.
- Digital messaging system is installed for deaf students, staff and visitors to download and use. Anyone can use it. Follow instructions at the end of this GEEP or on the entrance points of the building.

Green emergency door release

Fire exits

- On hearing or seeing the fire alarm sounding make your way to the nearest available safe exit route and leave the building without delay.
- Swipe access doors on escape routes will automatically release on the activation of the fire alarm.
- A green break glass call point is located next to the swipe access door. Should the door not release press the middle of the green break glass call point and the door will release.

Fire assembly point

- Make your way to the designated fire assembly point. This will be identified in the building fire action notice.
- Do not re-enter the building.
- Wait at the assembly point until you are informed by the Evacuation Officer or University Security that it is safe to return to the building.

Disabled refuge

Disabled refuge

- This building has fire refuges.
- All refuges provide protection from fire and smoke for a minimum of 30 minutes and can be found on the exit routes in the fire exit staircase.
- If the fire alarm sounds you should move to a refuge.
- A member of the building fire evacuation team will return to you in the refuge until there is a need to be evacuated, or the all clear is given.
- While waiting in a refuge you may have a designated friend or carer stay with you in the refuge during the fire alarm activation.
- You will be assisted from the refuge on confirmation of a real fire. This is to avoid unnecessary stress upon you being evacuated due to a false alarm.
- An Escape chair and an Escape mattress is located in a nearby building.
- The University has trained staff to operate the evacuation lift, escape chair, and escape mattress.

Commend refuge communications intercom

Staircase refuge

- Follow the instructions on the information poster in the refuge to summon assistance via the red Commend communications intercom.
- Press the button on the evacuation intercom in order to let Security know that you are in the refuge and may need assistance.
